

QUIK-MARK™ OBJECT MARKER

We use 3M
Retroreflective
Sheeting.

QUIK-MARK FEATURES:

Quik-Mark Object Marker delineates temporary or permanent barriers and other features near the roadway.

- » Consists of a durable, flexible, high-density polyethylene plastic reflective panel that mounts on a high-impact plastic “L”-shaped bracket.
- » Standard panel sizes are 6" W x 12" H and 8" W x 12" H reflective area. Other sizes available. Quik-Mark accepts sheeting on one or both sides.
- » Retroreflective sheeting meets all state and federal specifications. Available in Hi-Intensity Prismatic and Diamond grade.
- » Standard sheeting colors are orange, white and yellow. Other colors available.
